TRAINING AND INTERNSHIP PROGRAM

About Us

"Krutanic is at the forefront of transforming education through cutting-edge technology. Our comprehensive platform empowers learners with personalized learning experiences, collaborative tools, and real-time analytics. With adaptive assessments and interactive content creation, we enhance student engagement and achievement. Join us in revolutionizing education for the digital age, driving positive outcomes and preparing learners for success in tomorrow's world."

BUSINESS ANALYTICS

Why Business Analytics?

-  **Empowers data-driven decision making**
-  **High demand across multiple industries**
-  **Improves operational efficiency and strategy**
-  **Bridges the gap between business and technology**
-  **Offers strong career growth and earning potential**
-  **Builds versatile skills in tools like Excel, SQL, and Power BI**

1st MONTH

LIVE SESSIONS

Live sessions with industrial experts having experience above 10 years in the industry.

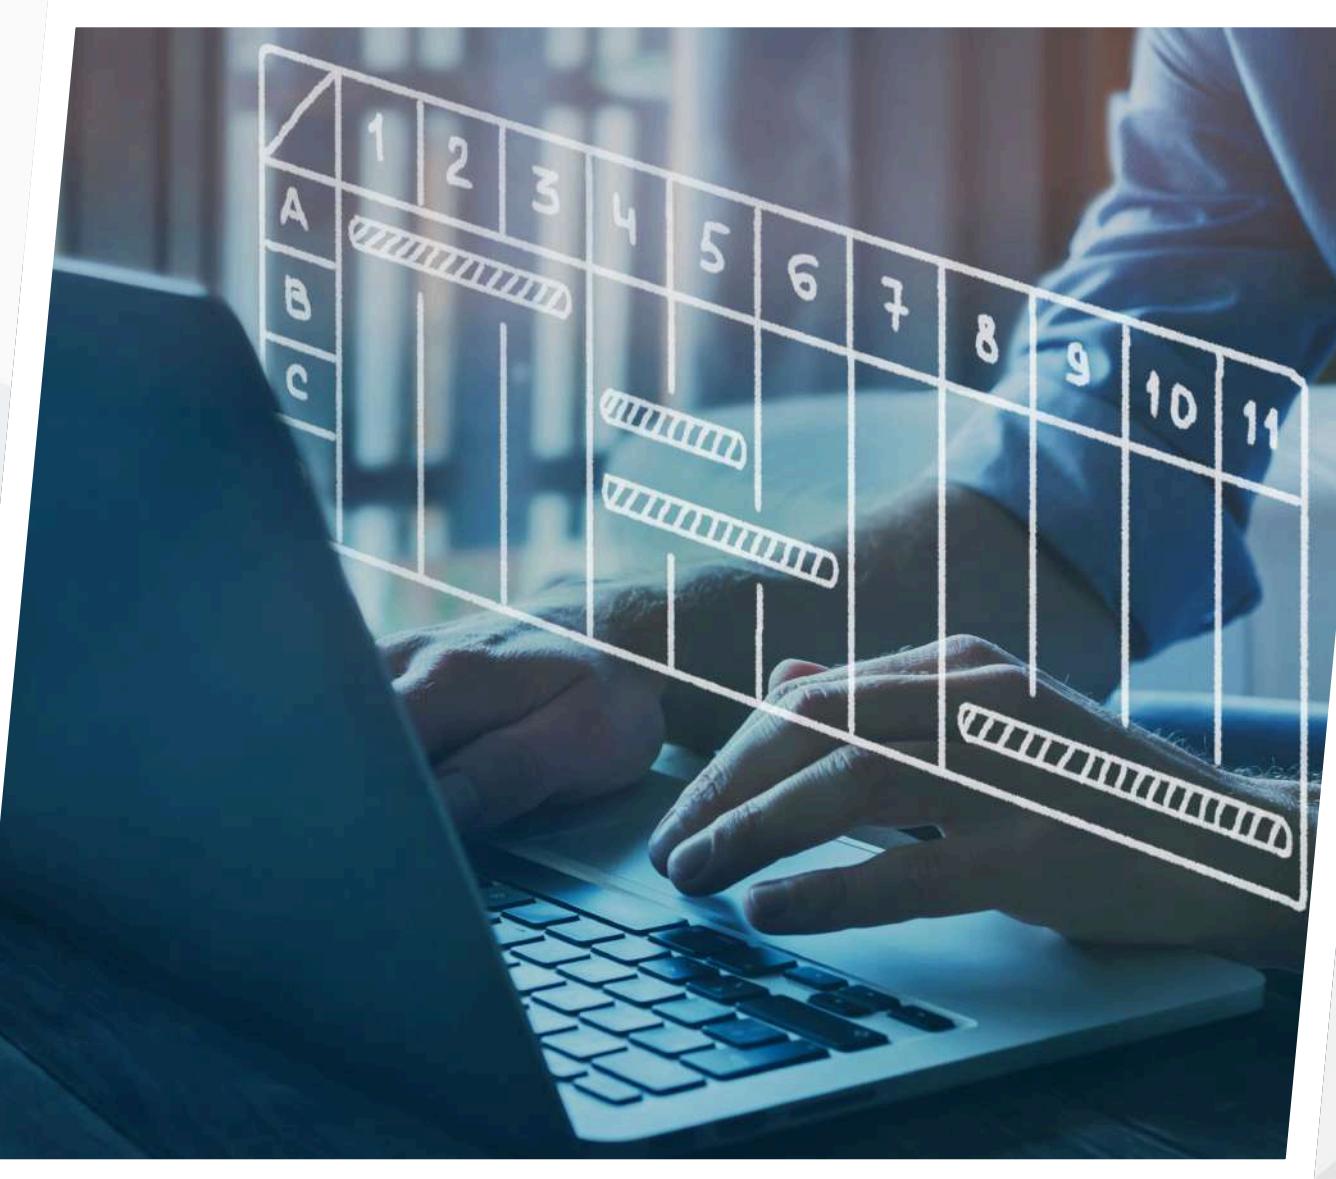

RECORDINGS

Recordings of all live sessions available with 1 year access in our LMS portal.

INDUSTRY RELATED

Industry related curriculum designed by the working professionals in the top hierarchy.

2nd MONTH

REAL TIME PROJECTS

Two real time industrial projects One minor project and One major project.

ASSISTANCE

All mentors will be assigned as project leads and guide the intern till the completion of the project.

PERSONAL DEVELOPMENT

Additional projects for personal development can be required.

Modules Overview

- **Introduction to Business Analytics**
- **Statistics & Probability Basics**
- **Excel for Data Analysis**
- **SQL for Data Retrieval**
- **Data Visualization with Power BI / Tableau**
- **Python for Analytics**

Modules Overview

- Exploratory Data Analysis (EDA)
- Predictive Modeling & Regression
- Time Series Forecasting
- Business Problem Solving with Data
- Decision Making using Analytics
- Capstone Project & Interview Preparation (only for placement assistance program mock interview preparation)

Curriculum included

MODULE 01

Introduction to Business Analytics

- Overview of analytics in business decision-making
- Types of analytics: descriptive, predictive, prescriptive
- Real-world applications across industries

MODULE 02

Statistics & Probability Basics

- Descriptive statistics: mean, median, standard deviation
- Probability concepts and distributions
- Hypothesis testing and confidence intervals

MODULE 03

Excel for Data Analysis

- Advanced formulas and functions
- Data cleaning, sorting, and filtering
- Pivot tables, charts, and dashboards

MODULE 04

SQL for Data Retrieval

- Basics of relational databases
- Writing queries: SELECT, JOIN, GROUP BY
- Data filtering, aggregation, and subqueries

Curriculum included

MODULE 05

Data Visualization with Power BI / Tableau

- Creating dashboards and reports
- Using charts, filters, and slicers
- Storytelling with data

MODULE 06

Python for Analytics

- Python basics and libraries (Pandas, NumPy)
- Data manipulation and visualization
- Automation of repetitive tasks

MODULE 07

Exploratory Data Analysis (EDA)

- Identifying data patterns and anomalies
- Feature engineering and transformation
- Visual EDA techniques

MODULE 08

Predictive Modeling & Regression

- Linear and logistic regression
- Model building and evaluation
- Applications in sales and risk prediction

Curriculum included

MODULE 09

Time Series Forecasting

- Time series components and trends
- ARIMA and exponential smoothing
- Forecasting business metrics

MODULE 10

Business Problem Solving with Data

- Case studies and problem identification
- KPI definition and analysis
- Using data to recommend solutions

MODULE 11

Decision Making using Analytics

- Data-driven decision-making frameworks
- Optimization techniques and tools
- Scenario analysis and simulation

MODULE 12

Capstone Project & Interview Preparation

- Real-time analytics project with end-to-end data flow
- Resume building and mock interviews
- Business case discussions and presentation skills

Tools Included

SAS

MS Excel

Python

Salesforce

Students Reviews

**Ramshad K**

★★★★★

I have gained a really hands on Experience with on graphic design which was delivered by Akash sir was very supportive and endless worthy experience so far.

**Sunil Kumar**

★★★★★

I'm Sunil Kumar, I have enrolled for Data Science program at Krutanic solutions and my experience is outstanding. It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

**Rajendra Prasad**

★★★★★

I'm Rajendran Prasad, to be honest I'm expressing my words, I have researched and found the correct certificate on Linkedin and scan that and found it 100% genuine and verified successfully.

It's my individual recommendation for everyone that Krutanic company is perfect with quality training and real world projects.

I have seen some bad reviews and many good reviews so got confused but now I realised that Krutanic solutions is the best company ever for training and internship provider, I have learned a lot of new industrial things.

**Shubham Rai**

★★★★★

Krutanic Group is truly doing a remarkable job by creating learning spaces that are not only informative but also inspiring. I've had the opportunity to attend two of their courses-Photography and Graphic Designing-and both were simply

**Sahad K**

★★★★★

I got placement at Wipro through krutanic support team. I am really grateful that I got to learn from AI Mentor Ashish sir and support from my counsellor was really helpful. All thanks to Bhoomika mam my operations support member from krutanic.

**Aman Nema**

★★★★★

Krutanic's Full Stack Web Development program was a fantastic learning experience. The course covered essential technologies like HTML, CSS, JavaScript, React, and backend development, providing a strong foundation for building real-world web applications. The hands-on projects and expert guidance from mentors made learning interactive and practical. This program is perfect for beginners and aspiring developers looking to enhance their skills in web development. Highly recommended.

Students Reviews

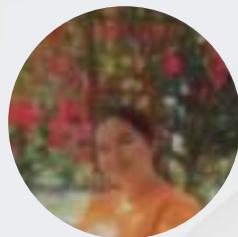

Tejas Kolekar

I am thrilled to share my enriching experience from the Artificial Intelligence and Machine Learning Internship I recently completed with Krutanic, in collaboration with Wipro, a leading multinational corporation. This 3-month program was an incredible opportunity to deepen my knowledge, enhance my skills, and grow both personally and professionally in the dynamic field of AI and ML.

Pranali Shinde

Excited to share that I've just completed a Data Science course from Krutanic! 🎉 It was an amazing journey diving into data visualization, exploratory data analysis, SQL, and machine learning. I've gained some valuable skills that I can't wait to apply in real-world projects. Big thanks to the instructors and everyone who made this experience so enriching! Looking forward to what's next!

Prabhleen Kaur

Just after few months of completion of my AI course I got my hands on attending Master class on Building AI agent without coding held in the month of March my experience was very good
I get to know about new things from my mentor Mr.Aashish Mishra
And at the end i received this 😊
All thanks to Krutanic for giving me this opportunity.....
